COTTON MARKETS.

New York August 18.—A more favor view of weather conditions in the south was considered ripe for a considerable li-dation or a renewal of bear pressure in cotton market to-day and prices lost a part of their recent wait Official and dation or a renewal of bear pressure in the cotton market to-day and prices lost a good part of their recent gain. Official advices did not indicate much rain in droughty sections as suggested by private advices, and early deciding were followed by railies, but the market was more or less ansettled during the entire day, and further private rain of shower reports caused renewed weakness in the late trading. The close was steady but at a net deciline of 19024 points on August and September, while new crop deliveries were from 19242 points under the final figures of 18842 points under the final figures of 1884 week. Liverpool had the rain news before the local opening and private cables reported liquidation by some of Saturday's buyers as the cause of the decline there. The start here was easy at a decline of 18915 points, and there was a lei of selling orders around the ring, which probably represer at it, unsettling induction of the control of the company of the control of the company of the control of the same doubt as to whether the install figures, and prices grainularly railled.

There seemed to be some doubt as to whether the rains had been sufficient, particularly as the official forces was coast, and after the first flurry of selling had spent itself business tapered of pending receipt of the official detailed reports. These showed less rain than looked for, and after their publication prices railied to within a point of two of Saturday's closing figures. A fair amount of precipitation was shown at some of the Central Texas stations, however, and prices later weakened again under private reports of showers in Texas this afternoon. The close was 4 or 5 points above the early low level. Cotton futures closed steady; Open, High, Low, Close,

2211	
	ing of good rains over Sunday, it was evident that selling orders had accumulated over Sunday in brokerage offices. After the call prices were 18@17 points down, which was the lowest level of the day. The detailed weather reports noted rains in Texas for both Saturday and Sunday at only eleven out of the fifty Weather Bureau stations in that State, and the forecast predicted generally fair weather for the western half of the belt, with the exception of showers along the Gulf Coast. This led to considerable buying among shorts, and the market gradually increased until in the early afternoon it was within 144 points of Saturday's last figures. Fresh reports of the rains in the West increased offerings late in the day, and the market closed steady at a net decline of 11@12 points. Spot cotton quiet, 1-16c. off; middling, 12.00. Sales on quiet, 1-16c. off; middling, 12.00. Sales on the spot 120 bales and 24 to arrive. Cotton futures closed: August, 11.57; September, 11.67; October, 11.67; Jan-

MARKET RELAPSES; SHOWS QUIET TONE

There Is Undercurrent of Strength That Suggests Higher Prices.

Higher Prices.

By Broadan Wall.

New York August 18.—Fair buying orders accumulated over Sunday. London prices were well above Saturday's close with the opening strong. Foreigners took some 10,000 shares, principally Union Pacific and Steel.

The market soon relapsed into duliness, and for the balance of the day showed a quiet tone with an undercurrent of strength that suggests higher prices.

Sensational reports of injury to the crop persisted. The government Weather Bureau reported beneficial rains in Iowa. Illinois and Ohio, with scattered showers elsewhere, but drought conditions still prevail in Kansas, Oklahoma and a large part of Missouril. Cereal prices opened easier, but recovered and ran up sharply in the afternoon. As these prices came from Chicago markets, stocks were sold moderately for short account by the room traders.

Aggressive strength developed in the metal shares, Steel was notably strong, rising over a point, while the copper stocks scored even greater advances. Amaigamated touched 745, and Utah 512; Union Pacific maintained its position of strength and rose a point, while Southern Pacific reflected the arbitrage which is going on between the stock and the rights and lost of the control of the pacific reflected the arbitrage which is going on between the stock and the rights and lost of the pacific reflected the arbitrage which is going on with a gain of 2 points and Westinghouse 114.

Bend brokers report a somewhat smaller volume of business but no shares.

Bond brokers report a somewhat smaller volume of business, but no shading in prices, New York City 4½ per cent receipts advanced to 101% a new high figure on investment buying. New Haven debentures were vanced to 101%, a new high figure on investment buying. New Haven debentures were active.

Seaboard Air Line incomes rose to 75, and there was continued strength in Baitmore and Ohio 4% and the St. Paul 4%.

Interesting story current, although not confirmed, has it that the Interborough Company is seeking to replace its holdings of Third Avenue that was disposed of prior to the levying of the assessment during the reorganization of the latter company.

The market grew dull in the afternoon, and this duliness was no doubt due to the heat locally, and which continues in the West. It may be recorded that the Weather Bureau's forecast for the next few days predicts rain in the West and Southwest.

July exports of domestic products were to per cent larger than the same month in 1912, and about 40 per cent in excess of 1911. There figures are most encouraging.

Money conditions continue favorable. Five months' money was easier on a 5½ per cent masis; discounts abroad showed a tendency to relax further. The Bank of Germany made a strong exhibit with a gain of \$7,000.

eel active and Union Pacific strong, scor-g a good advance over Saturday's prices, e relative position of the leaders remain-unchanged. ed unchanged.
Confidence in these stocks continues, although, as usual, bankers are not inclined to openly encourage speculation.
As a matter of fact, financiers are not in the liabit of encouraging operations in the stock market until they are ready to dispose of their own holdings, and this applies to investments as well as to securities of the seal-investment order.

Lieut.-Col. Gaillard, Chief Engineer, Suffering Breakdown in Baltimore Hospital.

Baltimore, Ma., August 18 .- In the hands of physicians in the Phipps Psychiatric Clinic of Johns Hopkins Hospital, Lieutenant-Colonel David D. Gaillard, chief engineer in charge of the central division of the Panama Canal, has started his fight to regain his health. He probably will be a patient at the institution for several weeks, while physicians study his case, and afterward may take a long trip, probably to Europe.

Colonel Gaillard is suffering from a nervous breakdown, which his friends and family believe was brought on by excessive work under the tropical sun of the isthmus.

The engineer was accompanied to Baltimore by Mrs. Gaillard and Dr. Charles F. Mason, superintendent of Ancon Hospital in the Canal Zone. Mrs. Gaillard, discussing her husband's case,

"He would leave the villa at 6 o'clock every morning, and tramp from five to eighteen miles over the works in the hot sun. This kind of traveling over the rough country, together with intense mental strain he was under for seven years, impaired his health."

Asked about the report published in New York that the party had arrived in 'the metropolis and become "lost," she said they were expected on a Panama steamship that was due to arrive about three days earlier, while they actually came on the Panama Railroad steamer Ancon, which docked in New York yesterday morning.

Colonel Gaillard's breakdown is be Colonel Galliard's breakdown is be-lieved to have been primarily precipi-tated about a year ago, when the Bas Obispo diversion dam, holding in the diverted waters of the Bas Obispo River, collapsed and flooded the bottom level of the cut between Empire and Bas Obispo, a distance of four miles. There was a depth of twelve feet at some points. It disarranged the work in the cut for about ten days.

[Special to The Times-Dispatch.]
Fincastle, Va., August 13.—A county
Democratic convention was held here
on Saturday, having been set by the
precinct delegates on August 2. E. V.
Barley, the former county chairman,
was nominated without opposition by
the delegation.

died apparently without heirs, was claimed in the Probate Court to-day by Lucinda Anderson, a negress of Benton Harbor, Mich., as her husband.

Lee began his career in a small New Hampshire town, after serving as Lee began his career in a small New Hampshire town, after serving as valet in the Civil War to a Confederate officer.

> In a petition filed for the claimant, it is explained that the publisher's real name was William A. Anderson, that he was a negro, though of light complexion, and that he deserted his wife thirty years ago.

The woman lays claim to the estate of the late publisher. It was valued at first at \$200,000, but as much of it was in plates of value to Lee's business alone, the present valuation has been estimated at \$20,000. Lee, or Anderson, never talked of his personal affairs, and his antecedents were a mystery when he died. The woman makes the certification by means of newspaper photographs which she has seen. The body will be exhumed to allow her to confirm her identification. The woman lays claim to the estate
